

MUCE WEEKLY DIGEST

Volume 2 - Issue 3

March 7, 2023

MUCE Weekly Digest is a periodic newsletter that informs the community about the latest events that occurred at MUCE during the previous week. Those who want their entries included should submit their requests to the Head of Communication and Marketing Unit (ponsiano.kanijo@muce.ac.tz) or Public Relations Officer (johari.burilo@muce.ac.tz) by Friday noon.

International Women's Day 2023

Hon. Halima O. Dendego
RC, Iringa

Each year, the world celebrates women's day on the 8th of March to uphold women's achievements, recognize their challenges and remind the world about women's rights and gender equality. This year, as in other previous years, 80 MUCE women led by MUCE Principal and CEO of the institution, Prof. Esther W. Dungumaro, joined other women in the Iringa region to celebrate the International Women's Day at the regional level which the event was held at Sun Flower stadium in Kilolo District in

MUCE Principal

in Iringa region. The Guest of Honour for this event was the Regional Commissioner of Iringa, Hon. Halima Omary Dendego, who, in her speech, expressed that no gender harassment for women and children will be tolerated in the region. MUCE Principal, Prof. Dungumaro, was also among the executive officers in the Iringa region who were given a chance to address women. In her speech, she encouraged women to believe in their competence and consider successful women in leadership in the country as examples and sources of inspiration in helping them get inspired to stand up and change the world for the better.

MUCE women celebrating the 2023 International Women's Day

In 2023, the main theme for International Women's Day is “DigitALL: Innovation and technology for gender equality”. According to the United Nations, 37% of women have no access to the internet; as such, they cannot develop the necessary digital skills to engage in digital spaces to pursue careers in science, technology, engineering and mathematics (STEM). Therefore, bringing women into technology will help create solutions to various challenges and promote gender equality.
